 [Create Specific Authorization Application](#)

If you are a Vehicle Connectivity System (VCS) hardware importer or connected vehicle manufacturer seeking to engage in an otherwise prohibited transaction, you must submit an application for a Specific Authorization to the Bureau of Industry and Security's Office of Information and Communications Technology and Services (OICTS) and await a decision from OICTS prior to engaging in the transaction pursuant to 15 C.F.R. § 791.307.

[Specific Authorizations](#)

 [Create Declaration of Conformity](#)

If you are a Vehicle Connectivity System (VCS) hardware importer or a connected vehicle manufacturer engaging in a transaction involving VCS hardware or covered software that is not prohibited but has a foreign interest, you must submit a Declaration of Conformity to the Bureau of Industry and Security's Office of Information and Communications Technology and Services (OICTS) pursuant to 15 C.F.R. § 791.305.

[Declarations of Conformity](#)

**NOTE:** Creating a Declaration of Conformity from this page will default to 'New Submission' for the declaration purpose. To create a 'Material Change' or 'Confirmation of Accuracy' declaration, please view your existing declaration submission and select the appropriate create button at the top of the page.

 [Create Advisory Opinion Request](#)

If you do not know whether a transaction is subject to a prohibition or requirement under the [Connected Vehicles Rule](#), you can request that the Bureau of Industry and Security's Office of Information and Communications Technology and Services (OICTS) provide an Advisory Opinion pursuant to 15 C.F.R. § 791.310.

Required fields are marked with an asterisk (\*)

**Internal Controls Assessment\***  
Provide an assessment (internal or third-party) of the applicant's ability to limit PRC or Russian government interference, including any controls and procedures that the applicant has in place, or will immediately deploy, to mitigate any PRC or Russian government control or influence over the design, development, manufacture, or supply of the VCS hardware and/or covered software.

**Security Standards Used\***  
Describe any security standards used by the applicant with respect to the VCS hardware and/or covered software within the prohibited transaction(s).

**Other Applicable Actions\***  
Please describe any other actions and proposals, such as technical controls (e.g., software validation, replacement supplier, etc.) or operational controls (e.g., physical and logical access monitoring procedures) the applicant has implemented, or intends to implement to address any undue or unacceptable national security risks stemming from the identified supply chain element under potential PRC or Russian government control or influence.
