<b>J.6</b>	Check this box if a Continuation Form (Form AP-P) has been used to provide additional information for any of the above questions.	

## FORM AP-J: Holdings of IAEA Safeguards-Exempted Material

Reporting requirements are set forth in 10 CFR Parts 75 and 110 of the U.S. Nuclear Regulatory Commission (NRC) Regulations.

### **INSTRUCTIONS:**

Submit a separate Form AP-J to report quantities of each nuclear material held at your site that were exempted under the U.S.-IAEA Safeguards Agreement. The NRC will inform those licensees who possess exempted quantities of nuclear materials of their obligation to report their holdings.

**Question J.1 Site Reporting Code:** A site code will be assigned and reported to you once your Initial Report is received by BIS. The site reporting code must appear on all future forms pertaining to this site.

**Question J.2 Activity Reporting Status:** Indicate the current reporting status by checking the appropriate box (i.e., “New Activity” to report an activity for the first time, “Activity with changes” or “Activity with no changes” if a report for this activity was previously submitted, or “Ceased Activity” for an activity that ended during the reporting year and will not be reported in future years). If the information previously reported for this specific activity has not changed, you are not required to complete the rest of this form, instead check the “Activity with no changes” box and submit along with Forms AP-A, AP-B, AP-C, and any other required activity forms.

**Question J.3 Building Information:** Provide the name or number for the building, as it appears on the site map submitted with Form AP-B, and, if needed, room number(s) and any additional information that more precisely defines where the IAEA Safeguards-Exempted materials are held.

**Question J.4 IAEA Safeguards-Exempted Material On-Hand:** Check the box beside the nuclear material, if it is present at your sites of or after the date specified in the notification of reporting requirements letter you received from NRC. If you have holdings of more than one type of IAEA Safeguards-Exempted nuclear material submit a separate form for each material held at your site. If you have holdings of enriched uranium, please provide the isotope percentage of U-233 or U-235 in the spaces provided. If multiple enrichments of uranium are present, provide the information on those materials on Form AP-P.

**Question J.5 Quantity and Intended Use:** Provide the quantity of IAEA Safeguards-exempted material in grams, indicate whether the intended end-use of the material is nuclear or non-nuclear, and provide a brief description of the end-use.

**Question J.6 Continuation Form:** Check this box if a Continuation Form, Form AP-P, has been used to provide additional information for any of the above questions.
