## **FORM AP-O: Supplemental or Clarifying Information Responding to a Request**

Reporting requirements are set forth in 10 CFR Parts 75 and 110 of the U.S. Nuclear Regulatory Commission (NRC) Regulations.

### **INSTRUCTIONS:**

Submit Form AP-O if NRC requests you to clarify information contained in a previously provided report. Information may also be requested about a location on an adjoining address outside your site, which the IAEA suspects might be functionally related to the nuclear fuel cycle-related activities of your site. If such a request occurs, the NRC will provide you with instructions on how to report.

**Question O.1 Site Reporting Code:** Provide the site reporting code, assigned by BIS, that was reported to you after your Initial Report was received. If you have not previously provided information to BIS, a reporting Code will be assigned and provided to you with the request for this information.

**Question O.2 Building Information:** If applicable to the request, provide the name or number for the building, as it appears on the site map submitted with Form AP-B, and, if needed, room number(s) and any additional information that more precisely defines where the activity in question occurs.

**Question O.3 Information Responding to an IAEA Request:** Provide a response to the specific clarifying request made by the IAEA that was forwarded to you through the NRC. Use Form AP-P if additional space is needed.

**Questions O.4 Continuation Form:** Check this box if a Continuation Form, Form AP-P, has been used to provide additional information for any of the above questions.
