9x515 and "600 series" Items Determined to be License Exception STA Eligible Pursuant § 740.20(g) of the EAR

Published date: January 6, 2021

Last Updated: November 18, 2026

The below table lists 9x515 and "600 series" items determined to be eligible for License Exception Strategic Trade Authorization (STA), pursuant to approved License Exception STA eligibility requests under § 740.20(g) of the Export Administration Regulations (EAR) as of September 22, 2026. See § 740.20(g) License Exception STA eligibility requests for 9x515 and "600 series" items for additional details on this process.

ECCN	Model Number	Item Description	Date Determined to be Eligible for STA
8A620.a	4500-100 and 4500-200	STIDD Diver Propulsion Device	3/14/2016
9E515.b	BAVS	Technology for local skills and SLU	6/24/2020
9E515.e	Processor known as ADDA	Technology related to the ADDA processor	1/6/2021
9A610.a	Havik (baseline) sUAV	small Unmanned Aircraft Vehicle (sUAV)	9/22/2026

Note 1: *Any person may request License Exception STA eligibility in accordance with the process set forth in § 740.20(g) for any item identified in § 740.20(g)(1).*

Note 2: *Once an eligibility request is approved for an item identified in § 740.20(g)(1), an exporter, reexporter or transferor must still review the provisions in §§ 740.2 and 740.20 and the Special Conditions for STA section of the relevant ECCN to determine whether the export, reexport or transfer (in-country) may be authorized under License Exception STA.*
