**BUREAU OF INDUSTRY AND SECURITY**

### **ANTIBOYCOTT ADVISORY ON TÜRKIYE**

The Turkish government has recently announced that it will suspend all exports and imports to and from Israel until the Israeli government allows an uninterrupted and sufficient flow of humanitarian aid into Gaza.

All United States persons, wherever located, are reminded that, with respect to their activities in United States commerce, the Export Administration Regulations prohibit taking certain actions in furtherance or support of an unsanctioned foreign boycott maintained by a country against a country friendly to the United States and require reporting of receipt of a boycott-related request to BIS. U.S. companies operating in Türkiye, in particular, are cautioned to be alert to their receipt of any requests to refrain from importing or exporting goods to or from Israel or to provide certification that the goods are not of Israeli origin or do not contain Israeli-origin components or materials. Illustrative examples of recent boycott requests reported to the Office of Antiboycott Compliance (OAC) can be found [here](#).

For further information, please contact [OAC](#) at (202) 482-2381 or via the online inquiry form [here](#).
